

Midtown Redevelopment Projects

Fremont Building

The Fremont Building is located in Downtown Sacramento and represents one of the major public / private partnership projects completed by the Capitol Area Development Authority (CADA). Completed in 2001, the Fremont Building incorporated three stories of residential above ground-floor retail, with a number of the apartments designated for affordable housing.

The project offers 12,000 square feet of retail with such notable tenants as Starbucks, Togo's, Pronto and Nishiki Sushi. This project was completed in partnership with Shasta Properties, a private developer and the Sacramento Housing and Redevelopment Agency.
