

Midtown Redevelopment Projects

The Inn Off Capitol Park

The Inn off Capitol Park is a good example of a public/private partnership between CADA, the State Department of General Services, the City of Sacramento, Sacramento Housing and Redevelopment Authority and a private sector developer. This parcel was a very deteriorated hotel site at 16th and N Streets adjacent to the State Capitol. The project partners worked together on public outreach, public and private financing and the construction of this property.

The redevelopment of the Inn off Capitol Park was recognized as a critical stage of this area's revitalization. John Hodgson was a key participant in this project. As Chair of CADA, Mr. Hodgson headed the team which coordinated all of the entities associated with the successful development of this project.
